FRONTEND EXPERTISE
- JavaScript (ES6+)
- jQuery
- Vue.js, Vue 3, Vuex
- HTML5, CSS3, SCSS, BEM
- Responsive & UI development

EDUCATION

MAJORS: INFORMATION TECHNOLOGY   08/2014 - 08/2018

TRAN DAI NGHIA University

Information technology engineer

WORK EXPERIENCE

SENIOR FRONTEND DEVELOPER   10/2021 - Present

BRAY LEINO SPLASH Company

- Worked in **Scrum teams** with backend developers, QA, PM, and clients
- Developed and maintained **scalable, reusable frontend components** using Vue.js, Vuex, Handlebars, and SCSS
- Proposed technical solutions, estimated tasks, and participated in sprint planning and reviews
- Reviewed pull requests and actively promoted frontend best practices across the team
- Improved **performance and Core Web Vitals** across enterprise websites
- Enhanced **accessibility** (semantic HTML, ARIA attributes, keyboard navigation, screen readers)

FRONTEND DEVELOPER   09/2020 - 10/2021

VIETRY Company

- Developed WordPress websites for the **Japanese real estate market**
- Implemented custom themes and plugins based on design files
- Ensured clean, W3C-compliant HTML/CSS with BEM methodology
- Optimized website performance and maintained cross-browser compatibility
- Handled both UI implementation and content updates

FRONTEND DEVELOPER   09/2018 - 09/2020

ARCA VIETNAM Company

- Built real estate websites for the Japanese market using JavaScript and jQuery
- Converted PSD/AI designs into pixel-perfect, responsive interfaces
- Improved frontend fundamentals through internal training and workshops
- Gained experience in performance optimization and UI consistency

GRAPHIC DESIGN   2017 - 2018

FREELANCER

- Designed banners, posters, and logos for small business clients
- Selected samples:
  - Logo design: drive.google.com/file/d/1944lmiFgEnajwDQBB-N4RvQHejNWQmst
  - Banner design: drive.google.com/file/d/1c2Mnd4BvpxNKlWb3Md98LtAMFhzGQvG6

- Performance Optimization (Lighthouse, Core Web Vitals)
- Accessibility (WCAG, ARIA)

Frameworks & Tools
- Bootstrap, Tailwind CSS
- Handlebars, Gulp
- WordPress, Drupal
- Git, GitHub, Bitbucket
- Jira, Agile / Scrum

Working Knowledge
- React

Other
- Adobe Photoshop
- Adobe Illustrator

CERTIFICATE

2016   Graphic Design Certificate

2017   Website Design Certificate

2018   English level B

INTERESTS

- Exploring modern frontend technologies and UI/UX best practices
- Reading books on personal development and problem-solving
- Participating in frontend communities and knowledge sharing
- Playing soccer and chess to improve focus and strategic thinking

SELECTED PROJECTS

CRODA – Global Enterprise Website Ecosystem -

https://www.croda.com/en-gb
https://www.crodabeauty.com/en-gb
https://www.crodapharma.com/en-gb

- Part of a **large-scale global website ecosystem** consisting of **multiple brand and regional websites**
- Developed and maintained **shared, reusable frontend components** used across many Croda websites
- Worked in Scrum teams with backend, QA, PM, and clients across different regions
- Improved performance (Core Web Vitals, Lighthouse scores) at **ecosystem level**, not just single pages
- Enhanced accessibility standards (semantic HTML, ARIA, keyboard navigation, screen readers) applied consistently across sites

AVANTI Research – E-commerce Platform -

https://avantiresearch.com

- Revamping corporate and e-commerce website architecture
- Developed product listing pages (PLP) and product detail pages (PDP)
- Implemented order workflow: product selection, checkout, order management, payment integration
- Integrated Middleware APIs to streamline frontend–backend communication
- Optimized performance and improved accessibility compliance

TSURUMI – Law Firm Website -

https://koutsujiko-navi.jp

- Developed a WordPress website from design to deployment
- Responsibilities included UI/UX design, custom theme development, optimization, and testing
- Technologies: PHP, SCSS, JavaScript, WordPress

React Learning Projects -

Technologies: React, React Router, Bootstrap, CSS
